

REMARKS

Claims 1-16 have been cancelled, without prejudice.

Claims 17-34 have been added.

In the Office Action mailed January 20, 2010, claims 1-16 were rejected under 35 U.S.C. § 102(b) as anticipated by Dooley (U.S. Patent Publication No. 2002/0168989).

The rejection of claims 1-16 has been rendered moot in view of the cancellation of those claims.

It is respectfully submitted that new claims 17-34 are clearly allowable over Dooley.

Although Dooley discloses a mobile terminal that is able to perform GSM E-OTD positioning measurements and UMTS TDOA measurements (Dooley, ¶ [0022]), there is no hint given in Dooley of a first base station sending a location request to a mobile terminal while the first base station has a connection over a wireless link with the mobile terminal, where the location request corresponds to a request made by a remote client and the location request specifies that the position of the mobile terminal is to be based on measurements made with respect to information from a second base station that communicates wirelessly according to a second protocol different from the first protocol of the first base station.

In view of the foregoing, it is clear that claim 17 is not anticipated by Dooley.

Independent claims 23, 29, and 32 are allowable for similar reasons as claim 17.

Dependent claims, including newly added dependent claims 18-22, 24-28, 30, 31, 33, and 34, are allowable for at least the same reasons as corresponding independent claims.

In view of the foregoing, allowance of all claims is respectfully requested.

In view of the foregoing, allowance of all claims is respectfully requested. The Commissioner is authorized to charge any additional fees and/or credit any overpayment to Deposit Account No. 14-1315 (16510FRUS03N).

Respectfully submitted,

Date: April 20, 2010
